Education

Mangatarem National High School

La Verdad Christian School |

2024- 2025

Bachelor of Science in Information
Systems

Skills and Expertise

- PC maintenance & hardware setup
- System & BIOS configuration
- Network setup & troubleshooting
- Software install & support
- Front-end dev (HTML, CSS, responsive)
- Database & table handling
- Printing & scanning tasks
- Problem-solving & user-focused design

Profile

I am an Information Systems student with experience in Python programming, CSS, C#, and PHP (Laravel). Currently in my second year of studies, I am actively building a strong foundation in basic programming, web designing, front-end technologies, database management, and software design.

Experience

Work Immersion

Grade 12 | March 2023

- Gained hands-on experience in computer maintenance, hardware setup, and system configuration.
- Provided technical support for printing, scanning, and other computer-related services.
- Learned the basics of network setup and internet troubleshooting.
- Provided support for presentation editing and BIOS installation.
- Assisted in internet troubleshooting and basic network setup.
- Reformat

Frontend Developer

WAD Project | 2025

- Front-end layout (HTML, CSS, Tailwind)
- Implemented interactive UI elements with clear visual hierarchy.
- Practiced component-based development through custom BlogCard elements.
- Focused on clean design and user-friendly interfaces in layout planning.
- Designed and developed dynamic layouts with reusable components in React.
